## Stock Market Game Record Sheet

100 points possible

**DIRECTIONS:**

- List all stocks, quantity, and closing prices on this sheet for 6 weeks for full credit. Week #1 prices are given to you. You can use the newspaper in this room or the one in the IRC for prices. You will only be allowed to use my newspaper before/after school or during studyhall, not during class time.
- Every Tuesday's closing price needs to be entered in the space provided. Use Wednesday's *PJS* or any other source which lists Tuesday's closing price. I suggest using Wednesday's *PJS* to avoid any confusion.
- You will be adding or subtracting Week #6 from Week #1 and then multiplying that total to the quantity of stocks purchased to determine the overall profit/loss. If you have more money in Week 6, you add. Put your final answer in the "Total Profit/Total Loss" column with a (+) or (-). You need correct closing prices for every week to receive full credit.
- Be sure to add a PLUS symbol (+) for profit and a SUBTRACTION symbol (-) for loss.
- This sheet is due on: **Feb. 16, 2018** . You need to spend as close to \$5,000 as possible. You will lose whatever you don't spend!

	<i>5 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>	<i>10 pts.</i>		
<b>Stock Name</b>	<b>Quantity of shares</b>	<b>Week #1 1/9</b>	<b>Total Price (quantity x price)</b>	<b>Week #2 1/16</b>	<b>Week #3 1/23</b>	<b>Week #4 1/30</b>	<b>Week #5 2/6</b>	<b>Week #6 2/13</b>	<b>Profit/Loss + / -</b>	<b>Total Profit/ Total Loss</b>	
<b>DMS</b>	20	25.00	500	24.30	26.10	28.22	23.99	26.00	+1.00	+ 20.00	
			<b>\$</b>							<b>TOTAL</b>	<b>\$</b>

\*Get as close to \$5,000 as you can without going over, you lose what you don't spend.
